In response to the Office Action dated October 7, 2002, please
amend this application as follows:

IN THE SPECIFICATION

Please replace the paragraph beginning on page 2, line 15 with
the following paragraph:

In a preferred development of the invention, provision is made
for the rotary latch to be moveable into its closed position
counter to the force of a restoring spring 58 by the flexible
drive element in the form of a tension element.
